Synopsis Books:

From *Ragtime* and *Billy Bathgate* to *Worlds Fair*, *The March*, and *Homer & Langley*, the fiction of E. L. Doctorow comprises a towering achievement in modern American letters. Now Doctorow returns with an enthralling collection of brilliant, startling short fiction about people who, as the author notes in his Preface, are somehow distinct from their surroundingspeople in some sort of contest with the prevailing world.

A man at the end of an ordinary workday, extracts himself from his upper-middle-class life and turns to foraging in the same affluent suburb where he once lived with his family.

A college graduate takes a dishwashers job on a whim, and becomes entangled in a criminal enterprise after agreeing to marry a beautiful immigrant for money.

A husband and wifes tense relationship is exacerbated when a stranger enters their home and claims to have grown up there. An urbanite out on his morning run suspects that the city in which hes lived all his life has transmogrified into another city altogether.

These are among the wide-ranging creations in this stunning collection, resonant with the mystery, tension, and moral investigation that distinguish the fiction of E. L. Doctorow. Containing six unforgettable stories that have never appeared in book form, and a selection of previous Doctorow classics, *All the Time in the World* affords us another opportunity to savor the genius of this American master.
