Synopsis Books:

When Innes Buchanan inherits the title of Laird, he is entrusted with the Scottish family estate, the ancestral home, and centuries of noble tradition. Sadly, he also inherits the family bank balance which, after death duty, is crumbling faster than the walls of their ancient castle.

After exhausting even the most unlikely of cash generating alternatives and with bankruptcy on the horizon, Innes stumbles across one last initiative, a research scholarship in Texas to establish a new herd of cattle. With a lifetime of sheep farming and no room for failure, Innes's luck returns on a chance encounter with Orley MacKenna, a born and raised Texan cowgirl who needs little convincing to leave her past behind. Though a likely couple, the two settle for an unlikely business partnership, and return to Scotland to try and save the Buchanan fortune.

Told with timeless Scottish romanticism and a knowing sense of humour, Bagpipes and Bullshot twists an everyday love story with a whole cast of village eccentrics who integrate seamlessly into a fantastic play on rural life.
