Synopsis Books:

Beach Music is about Jack McCall, an American living in Rome with his young daughter, trying to find peace after the recent trauma of his wife's suicide. But his solitude is disturbed by the appearance of his sister-in-law, who begs him to return home, and of two school friends asking for his help in tracking down another classmate who went underground as a Vietnam protester and never resurfaced. These requests launch Jack on a journey that encompasses the past and the present in both Europe and the American South, and that leads him to shocking--and ultimately liberating--truths.

Told with deep feeling and trademark Conroy humor, Beach Music is powerful and compulsively readable. It is another masterpiece in the legendary list of classics that his body of work has already become.
