Synopsis Books:

At 33 weeks pregnant, Amy is certain something bad will soon happen, it had too many times before. Deep down she fears its only a matter of time before the baby shes carrying will die. Despite the fact that Amy had been repeatedly slapped in the face with multiple miscarriages, she still cant seem to quiet that tiny voice in the back of her head thats screaming at her to not give up hope.

Follow Amys true story as she stumbles through her journey with humor and warmth, all while dealing with the neuroses that came along with getting her hopes shattered time and time again. All she has to do is close her eyes and shes lurched back to the memories of her losses; on the floor in her bathroom, in the hospital, and even at her place of work. No one knows what the internal mind of a woman whod lost five babies and suffered so many let downs goes through.

Can Hope ever truly survive memories such as these?
