## Synopsis Books:

In the three years since Project Dawn disbanded, Hale continues to fight the good fight. Now civilians, his squad-Circe's Recruits-works for a private organization bent on cleaning up the mess left in the wake of Project Dawn's rebirth. Pearson Labs continues to create Circes, people who have been genetically changed. When needed, these Circes take on an altered form-one neither man nor animal, but something in between. But unlike the squad, the Circes coming out of Pearson Labs aren't sane. Hale's dreams are more than nightmares-the prophetic doom of a beautiful woman he doesn't know and a man he wishes he'd never met: two people meant for him that are too involved with his enemy for Hale's peace of mind. But the heart wants what the heart wants, and Hale's beast won't accept less than the woman and man destined to become his mates. Then word arrives that Pearson Labs is finally coming down, and Hale has to race to save his mates from the fallout. Can they survive, or will their love crumble under the enemy's chaos and deception too close to home?

*NOTE: This book is a re-release. It's been given a new cover and minor edits, but is the same otherwise as the first edition.*

**Warning:** This book contains sexual content readers may find fascinating: group play, m/m, m/f, m/m/f and more. Expect government conspiracies, rough Marines, genetic experiments, and Shifters unlike the kind you think you know. This book is not for the faint of heart. Enjoy!
