Synopsis Books:

Deep Rising by N.R. Rhodes

In his nine-year stint with the CIA, Jared Caldwell thought he'd seen it all. But when his latest mission instructs him to apprehend a beautiful scientist who's allegedly linked to a devastating new form of warfare, he isn't prepared for the prospect of battling man-made tsunamis or the misplaced feelings he harbors for his number one suspect.

The irony of being accused of crimes her research was intended to prevent isn't lost on Svetlana Orskya. She also didn't expect her wish for a strong, sexy man to sweep in and change her life to come true especially not when he appears, gun in hand, pointed at her.

But time is running out and Jared and Lana must work together to protect the mainland. As the heat between them and the threat of mass destruction rises there is more at stake than just their hearts.
