## Synopsis Books:

When emotions are erased from the world, creating a civilization of mindless drones, only those with fury can survive.

On the same day each year Josephine Luquet wakes naked, shivering and covered in blood that is not her own. Under the cold gaze of the blood moon she is someone else entirely, but when dawn breaks her memories vanish and she is left with only an icy horror, a burning fury. Amid a sea of 'drones', she alone hasn't been cured.

Then she meets Luke. He isn't like the other drones. With secrets behind his eyes, he is the only one determined to help Josephine discover the truth before the next blood moon rises.

But time is running out. Is Luke willing to risk his life to be near her? Does he truly understand what violence she is capable of? Raw and full of passion, Fury is a story of love in a dystopian world, and how much we are willing to forgive in the struggle to remember our humanity.
