Synopsis Books:

Once upon a time

There lived a dragon called Theobald the Unlucky and a beautiful Princess, although neither quite in the usual fairy tale style. Theo wasn't a bad dragon, just one not comfortable in his "skin" since it hadn't been his to start with. Bewitched by a horny fairy with a headache and a rotten sense of humor, it wasn't until he met Princess Georgiana that things started to improve

Georgie has absolutely no intention of slaying this particular dragon. He's her sort-of guardian, her equally sex-obsessed psychic buddy and it's up to Georgie to free him to break the spell and release the man trapped within the dragon scales. Not that she knows that, of course. That would be too simple. However, when Theo saves her from a fate worse than well not quite death but certainly a lousy marriage matters progress in an interestingly passionate direction.

And as in all good fairy tales love finds a way. Because if it doesn't, Theo will sneeze on it and scorch the seat of its pants
