Synopsis Books:

After the death of his beloved dog, Harry, Peter Mitchell refuses to consider getting a new dog. Besides which, Peter has his hands full with his partner, Dr Evan Wells. The vet is surprisingly sensitive about Peters feelings and doesnt nag Peter about getting a pet. Of course, not nagging and not doing anything about it are two different things, at least in Evans mind.

When Peter is presented with a small red bundle of fur to hold, he realises the devious vet planned their new arrival and worse, shes already got a name. Peter may not have a choice about their dog, but hes going to put his foot down over her name. He should know better.
