Synopsis Books:

Handstead New Town was a North Manchester overspill and an unholy dump. As only they could, the Police used it as a penal posting. Worst amongst the residents of Handstead were the Tree Top Mafia, a gang of violent thugs who terrorised their neighbourhood, the town and surrounding districts. They, and the officers doomed to serve at Handstead wrestled constantly for dominance. True stoics, the police officers resolved to make a difference in a town they called Horses Arse. Each group recognised something of themselves in the other. Not quite mutual respect, but something. This is the story of some of those Police officers; The Brothers, Psycho, Bovril, Pizza and others, a group of hooligans in uniform and their journey through manic excess, despair and finally some form of salvation. Police officers like these used to exist but their like have passed on. Only accounts like this one serve to remind us that once upon a time, police officers just got on with policing.
