Synopsis Books:

Havent you ever wanted to kill someone? Especially your husband?

A romantic comedy set in the fast-paced world of Beverly Hills but these are not your average desperate housewives. Hollis Whitney is a successful and fabulous HGTV hostess on the brink of turning 40. She also happens to be madly in love with her carpenter even though she is married to sleazy movie director Frank Fielder. When Hollis discovers that Frank is diddling his latest (and much younger) leading lady, she sets out on a mission to kill him off. Her bitchy Beverly Hills friends catch wind of her plan and insist on helping her plot out the perfect murder. Together the women use their power and connections to help Hollis dig the hole that will bury Frank figuratively and literally. What follows is a tale of the unique skills each woman brings to the plan and a moving story about long-lost love, finding yourself, onion rings and the importance of pink. Killing your husband could just be the secret to a happy ending.
