Synopsis Books:

Growing up I never gave death much thought, or did I ever think my life would be worthy of writing about. Reflecting back, I now believe I have an incredible story to tell. This story is NOT about dying or death, it is however about living, and the many times death lost. Thus comes the title "Life VS Death" I know I am not the only one that has survived incidents that very well could have resulted in death. In fact when asked, everyone I spoke to could recall once, or twice during their life when they escaped death. What separates my story from most are the numerous times life won. A few of the events may not have been life threatening as much as crippling. All in all, there are over twenty occasions I will share.
