Synopsis Books:

Hannah knew taking a job with the genetically engineered hybrids of Luna Lodge would be interesting. Unfortunately for her, the revelation of the hybrids true nature to the world and attacks by their creators, the Horatius Group, have left her living at a compound that really doesnt need a party planner anymore.

Faced with the loss of her job, she comforts herself by trying to act as a kind ear to emotionally troubled hybrids, but she finds herself drawn to the scarred and stoic Lucius. He, however, seems more interested in getting rid of her than being with her.

As the acting head of security, Lucius knows he cant lose focus, especially with their enemy having already struck at them twice. His attraction to Hannah both confuses and frustrates him. Even if hes prepared to give in, he knows theres no way shed really want someone as messed up as him.

The past rarely stays buried. Soon, Lucius and Hannah confront a darkness that threatens to consume them both.
