## Synopsis Books:

As Frances Fogarty looks back at her childhood, she reveals the strange circumstances surrounding her older brother Tom's death. Did he really come back to look out for her and her younger brother -- or is her memory playing tricks? This touching tale of loss, love, and endurance is not about endings, but about a new beginning in another place. Allan Ahlberg has once again taken an original perspective on a well-loved genre, unsettling common assumptions of what a ghost story should be.
