All childrens book illustrator Claire Turner ever wanted was to be a mother. After six years of trying to conceive, she and her husband, Josh, have finally accepted that she will never be pregnant with a child of their own.

Yet once they give up hope, the couple gets the miracle theyve been waiting for. For the first few months of her pregnancy, Claire and Josh are living on cloud nine. But when she begins to experience debilitating headaches, blurred vision, and even fainting spells, the soon-to-be mother goes to the doctor and receives a terrifying diagnosis. Since any treatment could put their unborn babys life at risk, the Turners must carefully weigh their limited options. And as her symptoms worsen, Claire will have to make an impossible decision: Save her own life, or save her childs?
