Synopsis Books:

Can two very different people find their HEA on Fate Mountain? Find out in the next installment of Scarlett Groves exciting new PNR series!

From Paris with pastries ...

Pastry chef Maisie Green has come home from Paris so she can be close to her mom. Starting over on Fate Mountain means long hours of work, but her mom persuades Maisie to sign up on the shifter-human matchmaking site started by a local bear shifter.

Ski instructor Zach Rayner competed in the X-Games before the war, and like the rest of the Rescue Bear crew hes an ex-Navy SEAL. He loves high-risk, adrenaline-rush living but he knows its time to settle down and be the steady kind of man whos worthy of his mate.

To Fated Mate-dom ...

Maisie and Zach get an instant match on the mating site. Their chemistry is undeniable, but Zach wonders if hes sophisticated enough for a woman whos used to the high life of Paris.

Maisie isnt sure shes ready for the demands of being a bear shifters mate -- especially an uber-athletic guy like Zach. She doesnt even like skiing and her business still takes most of her time. Is getting involved really fair to either of them?

And the dangers of a snowy forest

Zach takes it slow, and his patient courtship is slowly winning her over. When Maisie decides to practice her skiing, however, she gets lost in the woods. Can Zach and the other Rescue Bears find her in time? And if they do, will Maisie finally be ready to trust her heart to her mate?
