Snow is a shapeshifter with a tortured past, hidden behind a wall of smiles and laughs. That past has given him advantages, though. He can shift quicker than anyone on the planet, and his instincts are second to none. He also has quite the knack for getting information, so when theres an increase in violence on shifters hes the ideal person to get to the bottom of things. A ray of sunlight is added to his darkening days when he meets Bernie.

Bernie is completely in the dark about who Snow is, but what he does know is that hes attracted to the guy in more ways than just physical. Who couldnt love a guy who has a permanent smile on his face?

But will Bernie understand when Snow is forced to reveal all? And even if he does, will he hang around long enough for Snow to make his feelings known?
