Synopsis Books:

Teratoid Heights realistically depicts the lifecycles of various species found in the tide location's cave-riddled terrain, down to the most painstakingly detailed behavioral patterns. It matters not that both Teratoid Heights and its inhabitants are entirely fictional. Brinkman taps into the zeitgeist of modern suburban America with what seems to be a mixture of J.R.R. Tolkein-style adventure, video-game inspired syncopation and an endless barrage of cable-television nature films all filtered through the reddened eyes of a marijuana-addled teenager. A book that reveals levels of humor and humanity no matter what age the reader.
