Synopsis Books:

From bestselling authors Becky Wicks (Before He Was Famous, Before He Was Gone) and Sarah Alderson (Hunting Lila, Fated, Come Back to Me) comes a new romance with a difference...

After losing her job and her boyfriend on the same day, Lara's beginning to wonder if her life can possibly get any worse. Then along comes Jamie, a childhood friend, offering her a job delivering mysterious packages to random destinations around the world. Suddenly, things are looking up.

Lara packs her bags and sets off on an epic adventure, meeting billionaire Arabic Princes in Dubai, rugged cowboys in Australia, a sparkling wannabe vampire in LA, a love guru with sex on the brain in Bali and Angelina Jolie's bodyguards in a hostage situation that can only be resolved with some very special eggs. But though trouble always seems to find Lara, it seems love is rather more elusive.

Pack your bags. The adventure's about to begin!
