## Synopsis Books:

The ultimate insider look at the filmmaking process of The Hobbit: An Unexpected Journey and The Hobbit: The Desolation of Smaug, a continuation of the two of the worlds biggest motion-picture franchises, The Hobbit, and The Lord of the Rings, by one of the worlds most notable directors, Peter Jackson.

Richly illustrated with behind-the-scenes photographs, digital renders, and film stills, this comprehensive book explores the costumes and props, including armour, weapons and jewelry, made for the first two films. Chapters will be broken down by type and character: Dwarves, Wizards, Hobbits, Rivendell Elves, Mirkwood Elves and more.

The book will lean heavily on beautiful studio and on-set photography of the finished pieces as well as film stills that provide context. Concept art, detail shots and imagery of materials samples and mock-ups will also be used to weave stories around the finished items. Behind the scenes processes will be showcased with supporting photographs of elements being created.

First-hand accounts from the actors, artists, digital effects specialists, and many other crew members describe the process and how the production unfolded, while also sharing insights into the characters. The book will have a bonus feature, unique to this book.

Compiled by Weta Workshop designer Daniel Falconer and featuring a wealth of stunning imagery, this book puts the reader face-to-face with all of the creatures and characters that populate the first two films in the Peter Jackson trilogy.
