Synopsis Books:

Tugire Ubumwe Lets Unite! was produced by the Outreach Programme on the Rwanda Genocide and the United Nations, in collaboration with Rwandan artist and genocide survivor Rupert Bazambanza. It is designed for a young audience and uses the example of Rwanda to promote respect for diversity and reconciliation.

This graphic novel has already received very positive feedback from some of our partners. The ICTR Information Office in Kigali described it as a crucial educative tool in the promotion of unity and reconciliation and the fight against the genocide ideology; it will create a big impact among the Rwandan population. And the Survivors Fund (SURF) International referred to it as a great piece of work that will get young people thinking of managing their troubled history and finding ways of communicating effectively.
