Synopsis Books:

Foreseeing the warlocks destiny, Alia saves the man her sister plotted to kill. He returns five years later to conquer her city. A pawn in a battle for desert waters, Alia resigns herself to a political marriage and an empty bed. But when Duncan demands more than just her name, she chances losing her heart along with her freedom.

Determined to reclaim her kingdom, Anora parlays her body to remain at Duncans side. From within the Helicon court she spins her web, waiting for the perfect moment to strike. Alia is all that stands between her and the throne. Her sister must cease to breathe before the warlocks affection wanes.

A master tactician, Duncan has no qualms about making Anora his courtesan and Alia his queen. But it is Alias eyes that haunt his dreams, and she soon becomes his only weakness. With the perils that haunt the Helicon court, caring for the fey is absolute folly. A warlocks love is a fatal curse, and Alias death will be his undoing.

Inspired by *The Arabian Nights*, *Warlocks Pawn* is a romantic suspense replete with political intrigue, magic, and a sword-wielding alpha male.
