Synopsis Books:

In the fall of 1947, Will Shakespeare saw the world collapse around him. Shakespeare, a secret soldier for the Knights Templar, barely escapes the slaughter of his entire knighthood at the hands of a rogue militant arm of the Vatican in a small Montreal church. With orders to escort Templar business associate Dorothy Wilkinson back to her home in Bermuda, Will must locate and rescue the most important secret treasure in human history before it is devoured by a hurricane in the watery caves beneath her father's property. The spiraling quest sends Will and Dorothy into uncovering dark secrets that make up the origins of the knighthood as they confront the traps and puzzles that masterfully protect the world's most coveted treasure.
